

Intern Jorge Garcia in SEA-TECH's Sustainable Energy Technology classroom

## SEA-TECH Skills Center Internships Underway

SEA-TECH students received paid internships through a Youth Works Grant provided by the Workforce Development Council's Eastern Washington Partnership. Students performed 160 hours of work for a local business over an eight-week period.

**The grant will provide internships through Spring 2016 for nineteen SEA-TECH students studying Digital Media Technology, Advanced Manufacturing and Welding, Electrical Systems Technology and Health Science.**

**Jorge Garcia** (Touchet) is interning with Doyle Electric, Inc. on his way to becoming a full-time electrician through an apprenticeship program.

**Trenton Mangarero** (Wa-Hi), is interning with Walla Walla's Web-Weavers, working on a variety of web development projects.

**Niko Chantel** (Wa-Hi), is interning with GESA Power House Theater and Shakespeare Walla Walla, using "mapping" to create digital scenes and backgrounds.

**Caitlin Guille** (Wa-Hi) is interning with Martin Archery, working in bow and arrow assembly.

**Josiah Travis** (Waitsburg) is interning with Dayton's Liberty Theater, assisting the sound technician and preparing on-line advertising.

SEA-TECH staff and BMAC, the local manager of the Youth Works Grant, will place several more students in internships this fall and winter. All internships will be completed by spring 2016.
